833-944-4673

Substance use during pregnancy, breast-feeding, and parenting can be dangerous, with a variety of harmful effects on both adults and children. The effects can be short or long term and may be physical, mental, social, emotional, and financial. You are not alone. Many others know what it is like and can help you quit, give you tips, and support you along the way.

This institution is an equal opportunity provider.

Maternal and Child Health (MCH) Program

The MCH Nurses and Coordinators work closely with our WIC staff to assist you in accessing additional community resources such as dental, housing assistance, parenting support and more. Ask to speak with them after your WIC appointment for one on one support.

Complete your child's milestone assessment today: [CDC's Developmental Milestones - MCH Program](#)
